6. Version 0.6, June 5, 2014. Completed chapter on typesetting (macros) in \LaTeX .
7. Version 0.7, June 8, 2014. Completed \LaTeX template for reports.
8. Version 0.8, July 11, 2019. Provided versions of \LaTeX templates for articles and reports with less package usage, since the more comprehensive versions of these \LaTeX templates (for articles and reports) use packages that are typically not installed in some \LaTeX engines.

Chapter 1

Text

There are a significant amount of references for helping people to learn L^AT_EX [?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?] and related information/technologies.

In this chapter, I will provide some templates for referencing, templates for BibT_EX entries, indicate some common L^AT_EX symbols, usage of colors in L^AT_EX, and miscellaneous details.

Random macros from my L^AT_EX-specific IDE (or text editor):

1. `\rule{6in}{.1pt}`
2. `emailid@domain.com`
3. Begin-end constructs (i.e., `\begin` and `\end`) for:
 - (a) quotation
 - (b) quote
 - (c) verbatim
 - (d) verse
4. Types of headings:
 - (a) `\chapter{}`
 - (b) `\paragraph{}`
 - (c) `\subparagraph{}`
 - (d) `\section{}`
 - (e) `\subsection{}`
 - (f) `\subsubsection{}`
5. To add an entry into the “Table of Contents” without it being numbered, try the following:
 - (a) `\addcontentsline{toc}{section}{BLAH}`
 - (b) `\section*{BLAH}`
6. Insert/import content from another file: `\input{RELATIVE PATHNAME}`
7. Import L^AT_EX packages: `\usepackage{}`
8. `\footnote{}`
9. `\marginpar{}`
10. \mathcal{C}
11. *C*: Caligraphy style font.
12. This is good.: Underline text.
13. **This is a statement.** TypeWriter.
14. **This is a statement.** Sans Serif font.

15. *This is a statement.* Slanted font.
16. This is a statement.
17. Types of labels:
 - (a) “chp:” for chapter
 - (b) “sec:” for section
 - (c) “ssec:” for subsection
 - (d) “sssec:” for subsubsection
 - (e) “fig:” for figure

An enumeration of items:

1. Quite sparse enumeration:
 - (a) Sparse enumeration:
 - i. Very sparse enumeration:
 - A. Very, very sparse list:
 - Blah
- 2.
- 3.
4. Inserting a horizontal line beneath this item in the list.

-
- 5.
 - 6.

To change the style for an enumerated list, try: `\begin{enumerate}[new_style] [?]`.

For example, to use Roman numerals, period separated by Arabic numerals, enclosed in round brackets, instead of the standard numbering, try [?]:

- (A.1) My item 1.
- (B.2) My item 2.
- (C.3) My item 3.:
 - (a) This is the first case.
 - (b) This is the second case.
- (D.4) My item 4.
- (E.5) My item 5.
- (F.6) My item 6.
- (G.7) My item 7.

List of items:

Commonly forgotten L^AT_EX typesetting information:

1. Turkish **i**: disinformation. Second **i** is a dotless **i**.
2. Accents, diacritics, or diacritical marks/points/signs:
 - (a) Accents, diacritics, or diacritical marks/points/signs cannot be added above and below a given letter.
 - (b) d
3. The @ symbol (at sign, at symbol, commercial at, or address sign) can be used without the mathematical mode/environment [?].
4. special characters:
 - (a) underscores:
 - i. cheat_sheets
 - (b) To indicate “--”, try: “--” (-\--). This would avoid turning the “--” into “_” [?, §2.5.3, pp. 26–27].
5. brackets:
 - (a) Use [duplicate] or [duplicate], rather than \[duplicate\].
 - (b) Use (duplicate) like normal.

1.1 Referencing Information

Here is how I can reference common resources:

1. For online resources:
 - (a) Author, “Title of web page,” in *Title of Primary Web Site*, Name of Publisher/Organization/Individual, Address, Month Date, Year. Available online at: <http://www.webpage.url/>; last accessed on June 2, 2014.
 - (b) Regarding entries for my B_IB_TE_X database, insert the following to the “howpublished” field: Available online at: <http://www.webpage.url/>; June 11, 2012 was the last accessed date.
2. DOI field in B_IB_TE_X should be indicated as a URL: <http://dx.doi.org/DOI>.

3. To enter a summary of a paper that I have written into a report, enter it as a section (or subsection or subsubsection) with the following “fields”:
 - (a) In the title of the section, indicate the title of the paper and its abbreviation (i.e., its `BIBTEX` key).
 - (b) Terse summary: Summary of the paper in 2-3 lines.
 - (c) Not-so-concise summary and highlights. Summarize the publication in ≤ 2 pages. For publications that are not survey papers nor literature review, highlight the advantages and disadvantages of the described techniques/innovations. For survey papers nor literature review publications, summarize the primary publications that was mentioned in the survey/review.
 - (d) Other notes about the publication: Insert important figures and equations, among other details about the paper.
4. *BibDesk* only creates a folder for publications with non-empty author fields. Hence, when entering a `BIBTEX` into my `BIBTEX` database, enter the names of the editors into the `author` field. **When citing edited publications, use a script to shift the content of the `author` field into the `editor` field.** This enables PDF files associated with `BIBTEX` entries in my `BIBTEX` database to be placed in subdirectories in my repository of publications based on the author’s (or first author’s) last name.
5. Wikipedia contributors, “TITLE OF THE ARTICLE,” in *Wikipedia, The Free Encyclopedia: CATEGORY*, Wikimedia Foundation, San Francisco, CA, MONTH DATE, YEAR.
6. Wikibooks contributors, “CHAPTER,” in *TITLE OF THE BOOK*, Wikibooks: Open books for an open world, Wikimedia Foundation, San Francisco, CA, MONTH DATE, YEAR.
7. Wikibooks contributors, “SECTION,” in *CHAPTER* of *TITLE OF THE BOOK*, Wikibooks: Open books for an open world, Wikimedia Foundation, San Francisco, CA, MONTH DATE, YEAR.
8. Wikibooks contributors, “TITLE OF THE BOOK,” Wikibooks: Open books for an open world, Wikimedia Foundation, San Francisco, CA, MONTH DATE, YEAR.
9. Wikiquote contributors, “TITLE,” Wikiquote, Wikimedia Foundation, San Francisco, CA, MONTH DATE, YEAR.
10. Wiktionary contributors, “TITLE,” Wiktionary, Wikimedia Foundation, San Francisco, CA, MONTH DATE, YEAR.
11. Dictionary.com, “WORD,” IAC, Oakland, CA, MONTH DATE, YEAR.
12. AUTHOR, “TITLE,” in *The New York Times: The Opinion Pages: Op-Ed Contributor*, The New York Times Company, New York, NY, MONTH DATE, YEAR.

14. AUTHOR, Answer to “QUESTION”, in *CATEGORY: QUESTION*, Quora, Inc., Palo Alto, CA, MONTH DATE, YEAR.

Figures

A template for inserting figures is shown in Figures 4.1, 4.2, 4.3, and 4.5. Also, a TikZ figure is shown in Figure 4.4.

I have used the `\clearpage` command to clear the remanding part of the first page for this section (§4), and insert the remaining figures and text in subsequent pages. If the last three figures (Figures 4.3, 4.4, and 4.5) are reordered to the following order, Figures 4.5, 4.4, and 4.3, the effects of the `\clearpage` command would be more evident.
